NYLON/POLYESTER BLENDED TAFFETA FABRIC COATED TWO SIDES

- 1 side printable (outside)
- Cost efficient

Nylon Taffeta is a Nylon fiber based fabric. It has a great surface smoothness allowing a very sharp print at a competitive price level compared to other printable fabric materials. ATN501 is made of Nylon and Polyester blended fibers. The coating is formulated to make this material printable with Thermal Transfer technology on the outside.

Selected for optimal compatibility with **AXR®TX** Thermal Transfer Ribbon.
