Warehousing

BIP-7000 is a smart handheld computer providing remarkably flexible functionality with data collection and communication capabilities. Its rugged ergonomic structure for single-handed operation is suitable for retail, warehousing & distribution, field force automation and transportation & logistics. For scan-intensive environments, an optional pistol grip and a new configuration equipped with a long range barcode scanner will be added.

KEY FEATURES & BENEFITS

Rugged Ergonomics

IP65, 1.8m (6 ft.) Drop, Scan Trigger

BIP-7000 is designed for comfortable handling with reducing fatigue while operating in harsh environments. It meets IP65, withstands drops from 1.8m (6 ft.) and supports crack-resistant TouchWindow LCD. It provides 40-key Shifted Alpha keypad with a built-in scan trigger with a finger saddle at the rear side of the device as well as standard-type scan keys at the center and the sides.

Data Collection

1D/2D Barcode Reader, 3MP AF Camera

BIP-7000 delivers flexible data capture capabilities. Either a 1D laser scanner or a 1D & 2D CMOS imager enables rapid and accurate data capture. A 3.0 megapixel autofocus camera helps capturing sharp images of the condition of damaged asset from a short distance. Its 2.8" touch screen enables collecting the recipient's digital signature for proof of delivery.

Communication

WLAN (CCX v4), HSDPA, A-GPS

BIP-7000 provides communication options to meet the business need. Its 802.11b/g WLAN complimented by a CCX v4 security certification ensures reliable wireless data transmission. Optional WWAN and GPS enable use in more field-based application opportunities. HSDPA(3.5G) mobile radio allows real-time voice and data communication and an integrated GPS enables fleet management and route accounting on the move.

Performance

806MHz CPU, Windows CE 5.0 / Windows Mobile 6.5

BIP-7000 offers industry-leading computing power with 806MHz processor. It can be paired with standard Windows CE 5.0 or the latest Windows Mobile 6.5 operating system delivering easy operation and system integration capability. It provides large memory capacity with 128MB RAM 256MB ROM and MicroSD slot, and its battery capacity ensures continuous operation for a full day.
